

Limestone Township Fire Station

*Fire Station for Limestone Township Fire Protection District
Route 17 and Van Siding Road, Limestone Township, Illinois*

A new state of the art 15,800 square foot fire station in rural Kankakee Township. The garage is a 105 foot by 84 foot column free space with six drive through bays. The building includes office functions and living quarters, a training facility, exercise mezzanine and a safe room.

The structure is a steel frame with long span open web steel joists over the garage. The office and living quarters are masonry bearing wall structures with light gage steel truss roof systems.
